

## **Nevada Administrative Office of the Courts Statewide eFiling Q & A**

(Request for Offer No.: 22-002)

Updated as of 3/17/2022

Q: Will vendor demonstrations be onsite or virtual?

A: Either. A conference room will be available for onsite demonstrations. Zoom will be used for virtual demonstrations.

Q. Can the proposer submit a response and be a prime on one team and a sub-contractor for a portion of the scope for another team response?

A. Yes.

Q. Will the AOC consider extending the due date of the RFO?

A. Not at this time.

Q. Do the Nevada Courts currently charge fees for accessing electronic documents? If so, can the Nevada AOC please share what these fees are, and whether the costs are consistent from court to court?

A. We do not have that information at this time.

Q. Are there any requirements to (or is Nevada amenable to) 3rd Party data connections for publicly available information?

A. We are willing to consider this as part of a phase II.

Q. The diagram in Figure 2 on page 3-24 says "3.1.2 Classification". Can the Nevada AOC please elaborate on the requirements pertaining to this segment in the diagram?

A. This pertains to the ability to classify which filings could be automatically filed without requiring review.

Q. Page 3-26 mentions "Administer Certificates" in the last row of the table for "Solution Administration". Can the Nevada AOC please clarify what certificates this refers to and if there are any related requirements?

A. This refers to website security certificates.

Q. On Page 29 of the RFP; Section 4.1.1 Company Profile, there is a reference to completing a table; however, I do not see a table included in the RFP. "If Offeror will be using multiple vendors to provide any system/service component items, Offeror must complete the following table for each vendor that will be actively participating in the project. Duplicate the table as needed."

A. Please use the following table.
